

# Are these threats or just ordinary items?

Maybe you should take a closer look...

## CXIS Series

*Computerized X-Ray Inspection Systems*

**The CXIS Series Computerized X-Ray Inspection Systems** help thwart attempts to conceal bombs, weapons, potentially dangerous liquids, stolen goods, and other illicit contraband. These PC-based systems incorporate the latest software algorithms to enhance detection and imaging performance. Ideal for screening letters, packages, luggage, oddly shaped items and palletized cargo.

Detect  
threats  
*before*  
it's too  
late.

(actual CXIS images)

Just *some* of the standard features on all CXIS models:

- Dual-Energy Imaging Systems
- B&W, Color, Monochrome
- Pseudo Color Imaging
- Organic & Inorganic Imaging
- Automatic Edge Enhancement
- Automatic Image Archiving
- Image Distortion Correction
- Real-Time Image Manipulation
- Dell Intel Core-Duo PC
- 17" LCD Displays
- Multi-Level Security
- Programmable Zoom
- Image Status Bar
- Auto Z-Level Measurement
- Single Button Penetration
- Date/Time and Bag Counter
