

Toshiba Partners with American Innovations for Government and Military Sales

Source: American Innovations, Inc. News Room

April 3, 2007 (Irvine, CA) - Toshiba Imaging Systems Division, a division of Toshiba America and a leader in advanced imaging technologies has entered a teaming agreement with American Innovations, Inc. to distribute their remote head cameras, three chip cameras, and machine vision cameras to US Government and Homeland Security customers. Toshiba's three CCD prism block remote head cameras and machine vision cameras are now available for purchase through American Innovations' GSA Contract # GS-07F-5556P.

This federal contract enables all U.S. federal agencies, the entire U.S. military, and all state and city agencies qualified for procurements through GSA's 1122 Program to order these cameras and related accessories at pre-negotiated discounted government contract pricing.

According to Vince Giovinco, Toshiba Imaging Systems's National Sales Manager, "this partnership with American Innovations will enable the vast network of customers in U.S. government and homeland security to have easier access to our sophisticated imaging cameras."

Grant Haber, President of American Innovations comments, "We look forward to working with Toshiba and utilizing their cutting edge imaging technologies to enhance government and military security and surveillance requirements."

To learn more about the Toshiba cameras and accessories available through this federal contract visit www.cameras.toshiba.com. For government or military inquiries and pricing contact American Innovations at 845-371-3333 or visit www.gsaadvantage.gov and enter contract # GS-07F-5556P into the search field.
