

SimplexGrinnell orders CXIS-2517 Computerized X-Ray Inspection System

Source: American Innovations, Inc. News Room

May 1, 2007 (Spring Valley, NY) - American Innovations, Inc. received a product and services contract from SimplexGrinnell (Tyco International) to supply an AI CXIS-2517 computerized x-ray inspection system for one of their government accounts. The referenced x-ray inspection system was an integral component to the total security solution provided by SimplexGrinnell. Installation, operator training, and support services will be provided by American Innovations, Inc. directly to the government agency. The agency and facility location have been withheld to protect the privacy of the end user.

American Innovations, Inc. is honored to have the opportunity to expand their working relationship with SimplexGrinnell and appreciates the confidence they have placed in our team to satisfy these important security requirements.

About SimplexGrinnell:

SimplexGrinnell is today's premier systems integrator for designing, commissioning and maintaining large Windows®-based security solutions. SimplexGrinnell has the resources and the Microsoft-certified expertise to provide a complete enterprise solution for virtually any large-scale systems integration application, from college campuses, hospitals and corporate headquarters to office towers, petrochemical plants and manufacturing facilities. With its exceptional systems integration capabilities, SimplexGrinnell is able to bring multiple systems together into a seamless integrated security environment that can be managed from one point of control.

About American Innovations, Inc:

American Innovations, Inc. is a minority, woman owned small business serving Government and military agencies, defense contractors, system integrators, corporations, and high profile venues. AI provides the means to safeguard people, facilities, and high profile assets through strategic planning, an array of advanced technologies, and policy implementation. Loss prevention and visual inspection requirements are additional applications satisfied with AI's technologies and services. Securing critical infrastructure, protecting soldiers and civilians, and delivering solutions for challenging requirements are primary objectives of AI. Delivering total solutions which combat evolving threats has been instrumental in the growth of American Innovations, Inc.
